ELLIE COX

SENIOR ASSOCIATE CONSULTANT

SUMMARY

I am a Senior Associate Consultant who has worked on a diverse set of projects. I have prior experience working in the Open Science landscape, including in the research and government sectors. I am skilled in dealing with qualitative and quantitative data sets, and have developed literature reviews, focus groups and online surveys. I have skills in identifying and reviewing articles, using techniques such as snowball sampling and have developed analytical frameworks for multiple projects. I can also synthesise both qualitative and quantitative data, and I am proficient in NVivo, a data analysis software which we use for consolidating many of our findings. In my current role, I am able to engage with a variety of different stakeholders.
